

Yale Smart Residential Range

Trusted every day

Price List 2021

Over 180 Years of Heritage and Trust

Yale is the global master brand for the residential market with consumers as the primary target group. Yale stands for Trusted Innovation and has 180 years of experience in making homes safer and smarter.

Trusted every day

Since 1840

yalehome.co.in

A woman with voluminous curly hair, wearing a bright yellow knit cardigan over a dark plaid shirt, is seated at a wooden table. She is looking down at a black smartphone held in her right hand. On the table in front of her are a pair of glasses, a notebook, and a white mug. The background is softly blurred, showing a warm interior with a string of lights and a hanging light bulb.

Yale

Yale is trusted by millions of people every day to keep what's important to them safe.

Our innovations have protected their homes, families and belongings for over 180 years. We have expanded from being a leader in mechanical lock engineering to innovating connected smart locks and homes. Because we always make every effort to push the boundaries in a changing world.

We were there for your grandparents (and probably theirs) and we'll be there for your children.

Today, and every day to come.

Protection for the home, peace for the mind

**For your home. For the things you love.
For you.**

Yale offers you trusted everyday convenience and security for your entire home, through smart security products and easy to use Yale Access app.

We're here to help you protect the things that matter most.

Full control from the palm of your hand

Turn your smartphone into your key. The intuitive Yale Access app for your Android or iOS device lets you manage the access of your home remotely.* You can share access with the people you trust, view activity, and receive notifications.

* Yale Connect Wi-Fi Bridge is required for functionalities such as locking/unlocking your door remotely, instant alerts to your phone and for integrations like voice assistants.

Auto-lock and unlock as you come and go

For peace of mind, the auto-lock feature can automatically lock your door when you leave for the day, either immediately after closing or after a set amount of time via the Yale Access app. When you return home and walk up to your door, Auto-unlock will then unlock it again thanks to geo-fencing, so you don't need to fumble around with keys.

Grant entry from wherever you are with the Yale Access app

Remote access means you can let in family, friends and trusted visitors like the cleaner or the delivery driver – from anywhere – when Yale Smart Lock is paired with Yale Connect Wi-Fi Bridge. If someone forgets to lock when they leave, you can take care of it with the tap of a finger.

Safe and secure

Your security is our business. Yale Access account is protected by 2-factor authentication meaning that on top of your password, you will be required to verify your identity with either an email or phone number.

Our Yale Smart Lock uses Bluetooth Low Energy (BLE) technology encryption. On top of the security offered by Bluetooth, we use AES 128 and TLS encryption, commonly referred to as bank level security. If you lose your phone, you can disable your Yale Access app and all virtual keys at any time.

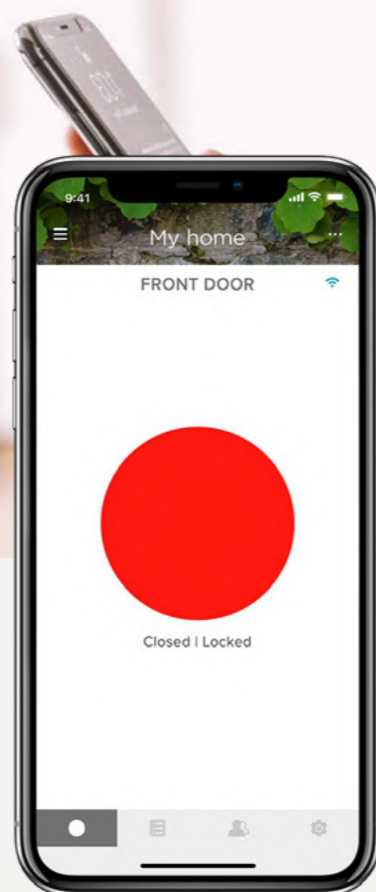

The Yale Access app functionalities

App control

Lock and unlock your door from your app, anywhere in the world.

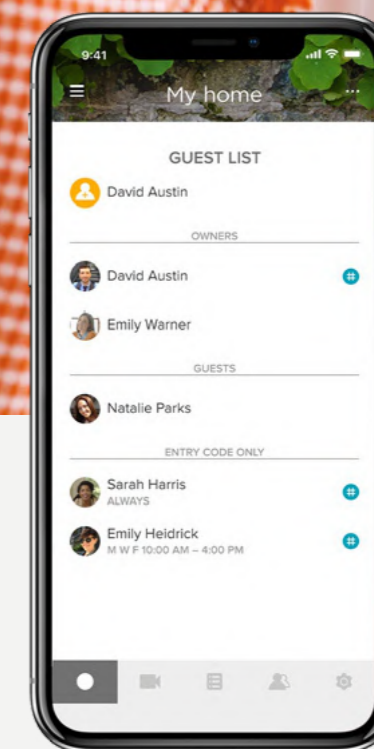

DoorSense™ technology

The lock will check the status of the door and tells you if your door is securely closed and locked.

Activity monitoring

See who comes and when with the Activity Feed. Check who unlocked the door and if or when it was actually opened. Set-up alerts to notify when specific people arrive home.

Guest access

Grant unlimited virtual keys valid for a few weeks, a few hours, or a few minutes. Never worry about lost or stolen keys again.
